

STREET PROJECT NOTICE

The 2023 Secondary Street Project has been set. The Village of Crestline will be working on East Thrush Avenue as outlined above. The road is in major disrepair and takes a priority over other roads due to the amount of traffic in the area. The road will be milled down 2-inches and re-laid with a 2-inch asphalt finish. This will provide a major upgrade to the road in this area serving the residents and homeowners that have asked for a number of years.

Project Cost is estimated at \$ 47,080.00

We know this will create an inconvenience for many of our residents in the area during the project. We thank you for your patience while we work to improve the streets in your neighborhood.

WORK TO BEGIN THE WEEK OF OCTOBER 30, 2023

WORK TO BE COMPLETED BY NOVEMBER 10, 2023
